

## **TAX INFORMATION**

### **IRS DEDUCTIBLE EXPENSE FOR TUITION AND FEES**

Please be advised that The Winston Preparatory School is a specialized program for students with disabilities, and accordingly, our unreimbursed tuition and fees may be deductible as a medical expense under existing regulations issued by the U.S. Department of the Treasury, Internal Revenue Service.

Because Winston Preparatory School cannot provide individual tax advice to our parents, please contact your tax advisor to discuss those regulations and your ability to claim a deduction on your personal income tax return.

The following IRS publication may be helpful and may be obtained from the Internal Revenue Service. For informational purposes only, the IRS has published Publication 502, Medical and Dental Expenses (Including the Health Coverage Tax Credit), which contains information on the payment of tuition and fees as a medical expense. You can obtain a copy of Publication 502 by calling the IRS offices at: 800-829-1040, ext. #33, or by Internet access at: <http://www.irs.gov/pub/irs-pdf/p502.pdf>.
