

Dear Families,

Thank you for your interest in Winston Preparatory School/Winston *Transitions*. At Winston, each student's program is designed to develop essential skills while challenging his or her strengths. Therefore, we are proud of our unique educational program for students ages 17-21 with learning differences. Winston *Transitions* provides an extension to the Winston Preparatory School educational experience when appropriate, in a way that continues to build academic skills while developing life and work skills, so that the students can realize individually meaningful and active participation in education, work and life. *Transitions* is a highly individualized program that is academically precise to match each student's strengths and needs. This core element of all Winston Prep programs is further enhanced by rich internship experiences, the development of independent life skills, and functional personal goal setting. The process of placement and program design is informed by an in-depth understanding of the individual that begins with the information you share with us during the application process. Please refer to the enclosed application procedure checklist for further explanation of required information. Additionally, all prospective parents/guardians are required to meet with the Program Director after the application has been processed. Please contact John Civita with any other questions regarding the application process via telephone (646-869-4600) or email (jcivita@winstonprep.edu).

We look forward to meeting with you and sharing information regarding Winston *Transitions*.

Respectfully,

John Civita
Director, Winston Transitions
Winston Preparatory School
